

Durable Protection from Bacteria and Odours

Aegis Microbial Shield- Globally recognized product – Available in Canada

Protects Surfaces from Bacteria a mould taking hold

Infectious pathogens are introduced to the vet clinic every day. Your surfaces are exposed to those and other biological accidents related to pets.

Aegis microbe shield, acting like a microscopic bed of nails, protects all of the surface in your clinic, floors, tables, counters, keyboards, door knobs, equipment (scales and cages) and more with a microscopic bed of nails that physically kills microbes. Aegis will not leach or wear off with normal use and cleaning.

Control and Protect Your Vet Clinic from Harmful Bacteria

STEP 1 – We follow your usual cleaning crew.

STEP 2 – We apply the world's leading antimicrobial the Aegis Microbe shield to all at risk surfaces using a variety of application techniques depending on the surface.

STEP 3 - let your pet owners and staff know your surface are protected for their protection
